

# Missing Numbers

Use the rules which you have learnt to complete the missing numbers in the following sums. By the side show the calculation you used to solve the problem.

1.            + 409 = 738            To solve do:

2.    438 +            = 608            To solve do:

3.    751 -            = 280            To solve do:

4.    783 ÷            = 9            To solve do:

5.            + 738 = 1342            To solve do:

6.            × 6 = 798            To solve do:

7.            ÷ 5 = 146            To solve do:

8.            × 4 = 652            To solve do:

9.    868 ÷            = 124            To solve do:

10. 367 +            = 921            To solve do:

11. 782 -            = 319            To solve do:

12.            - 578 = 356            To solve do:
